## ATTACK OUR POLICY

CENTRAL AMERICAN POLICY HAS AROUSED GENERAL PROTEST.

Latin-American Alliance Against the United States May Result—Likely to Be a Remonstrance.

Washington, D. C.—That at least three, and perhaps more, of the Central and South American diplomats make a concerted protest of some force of American states at Buenos Ayres against the Central American policy of the United States is the possibility being discussed in diplomatic circles here.

Rumors to this effect have been persistent of late in quarters usually well informed, and some responsible Latin-American representatives admitted their approximate truth, though none would permit himself to be quoted. The rumors have led to lively exchange of information among the Central and South American republics will here. Officials of the state department are watching the situation very closely.

Some of the more radical of the Spanish-Americans are said to be in kind at the coming international conference of a Latin-American alliance against the United States. It is generally conceded, however, that formal action of this nature is unlikely.

The most that can be regarded as probable is that the republics interested will give the United States to understand diplomatically that the principles represented in the attitude of this government on the east coast of Nicaragua will not be accepted willingly as a part of the international law of the Americans. It is hardly likely that this protest, if made, will become a part of the official proceedings of the conference.

## BROOKINS GOES UP 6,175 FEET

Wright Machine Gets World's Record For Height.

Atlantic City, N. J.—Walter Brookins, in a Wright biplane, broke the world's altitude record when he attained a height of 6,175 feet. He used his last drop of gasoline in his highest altitude and was still climbing when his engine missed explosions.

The daring aviator brought his machine back to level to get the last drop of fuel out of the storage tank to reach the line of vision of engineers on the beach. Reaching the imaginary line, Brookins started to glide to earth, and his engine stopped entirely when he was at 5,600 feet and still over the ocean. His cycling glide to the beach, which the crowd believed to be a bit of fancy flying, was done to save himself from diving into the sea.

Brookins was ready to collapse when he reached the ground, and did not tell of his plight in the air until midnight, after he had partly recovered.

## Pleasant Social Event.

The reception given Thursday evening by Misses Light and Irene Faris and Mrs. R. W. McKinney in honor of Mr. and Mrs. James Knox Parr, of Paducah, was one of the most formal and brilliant given this season. Mr. and Mrs. C. L. Walker received the guests as they arrived and Misses Anna Lynn Dodds and Celeste Roberts served punch. The receiving line, consisting of Mrs. McKinney, Mr. and Mrs. Parr, Misses Irene and Light Faris, Marie Brevard, Virginia Prather and Miss Maybelle Lyons, of Eddyville, and Messrs. Gus Alexander, E. M. Crutchfield, R. A. Tyler and Edward Prather, received in the parlor. The refreshments of cream and cake were served in the library by Misses Leah Barry, Magalee Rice, Hazelle Johnson and Bertie May Rice. The library was beautifully decorated in potted plants and brilliantly lighted with candles. There were about sixty guests present.

Now that the weather is hot and the Mississippi river water is cool, the Courier is constrained to warn the Hickman boys that great care and discretion should be exercised in going in bathing. Hardly a summer passes that some boy is not lost in the treacherous water, and it is a bright little fellow.

## Union Meeting Sunday.

The following program has been arranged for the mass meeting at the Court House next Sunday night:

Subject—"Are the churches in Hickman of any use?"  
"Why such a question asked?"—Rev. H. J. Geiger.  
"Why such a condition?"—Rev. W. G. Stockton.  
"The mission of the Church."—Rev. D. W. Bryant.  
"The Remedy."—Rev. A. Turkington.

NOTICE: All Woodmen are requested to meet at the hall on next Wednesday night. Business of importance.—Jno. Pyle, Clerk.

Miss Allie Thomas is home from Reidsville, N. C., where she has been visiting several months.

E. P. Wright is building a new residence west of Judge Murrell's home.

Joseph Thomas, the man who invented the hoop-skirt which was so popular half a century ago, died last week in Hoboken, N. Y., at the age of 82. Mr. Thomas also invented a sewing machine and a number of other things but his fame mainly rests on the hoop-skirt which our mothers wore.

## Near Tragedy at Lake.

While at Reelfoot Lake Wednesday afternoon with a party of Hickman friends, Miss Mariana Cox, of Fulton, fell out of the boat and had a narrow escape from a watery grave.

It seems that the young lady, who was accompanied by Sheriff Johnson, became tired of sitting in one position in the small boat and stood up in order to rest herself. The boat was drifting along slowly near the cypress trees at the upper end of Blue Basin when the young lady caught hold of a small limb overhead which caused her to lose her balance. She plunged over the edge of the boat in water possibly twenty feet deep. Mr. Johnson jumped in after her but being unable to assist her in getting back in the boat, succeeded in reaching some low branches on a cypress tree. Several minutes elapsed before Clarence Reed could reach them. Mr. Johnson is a good swimmer but was almost exhausted when aid came. Reed stepped out of the boat in which he and Miss Mabel Wilson were riding in the one out of which Miss Cox had fallen. In an attempt to help the young lady back into this boat, it was overturned and the three of them now struggled in the water. Miss Cox was finally landed safely into another boat, as well as the gentlemen, and all started back to shore a mile away—scared and soaking wet.

To say the least, a tragedy was narrowly averted, and had it not been for a few low hanging branches

## Mrs. Hinshaw Dead.

Malinda, wife of Thos. Hinshaw, age 43, died at her home in West Hickman this morning at 3 o'clock, after a lingering illness of tuberculosis. Deceased was born near Crystal, Tenn., but had resided in this city about two years.

She is survived by her husband and five children—Elvy Johnson, Malinda, Ira, Tom and J. Hinshaw. For many years she was a devoted member of the Baptist church.

Burial will occur this afternoon at the City Cemetery.

Born to the wife of J. C. Ellison, Wednesday night, July 13th, a fine 19-pound boy. O, you Clint.

Mrs. A. H. Leet and children left Sunday for Jackson, Tenn., to visit her mother, Mrs. Springs. The latter is quite ill.

The Columbus ball team came down and crossed bats with the Hickman sluggers yesterday afternoon. The score was 7 to 0 in favor of the home boys.

Of an old cypress snag, and the nearness of Mr. Reed to the scene of the accident, a far different story might have been written for the Courier this week.

Miss Cox is one of Fulton's most charming young ladies and is the guest of Miss Mabel Wilson.

## Married Last Night.

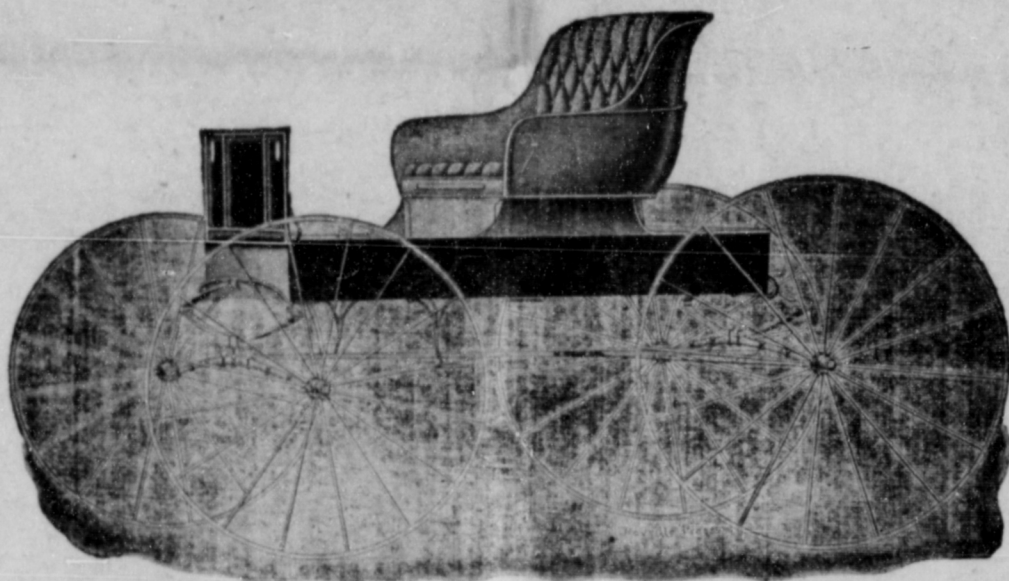

Miss Loto Cavitt and Mr. John Meacham, two well known and popular young people of this city, were united in marriage last night at 9:30 o'clock, at the home of the bride, Rev. Wilson of the Methodist Church, officiating.

The wedding was a very quiet affair, only the relatives and a few intimate friends of the contracting parties being present. After the ceremony and receiving are good wishes of those present, Mr. and Mrs. Meacham drove to the depot and boarded the 10:30 train for Scooba, Miss., and other southern points to be gone about two weeks.

The bride is a charming daughter of Mrs. S. M. Cavitt, and one of Hickman's sweetest and most sensible young ladies.

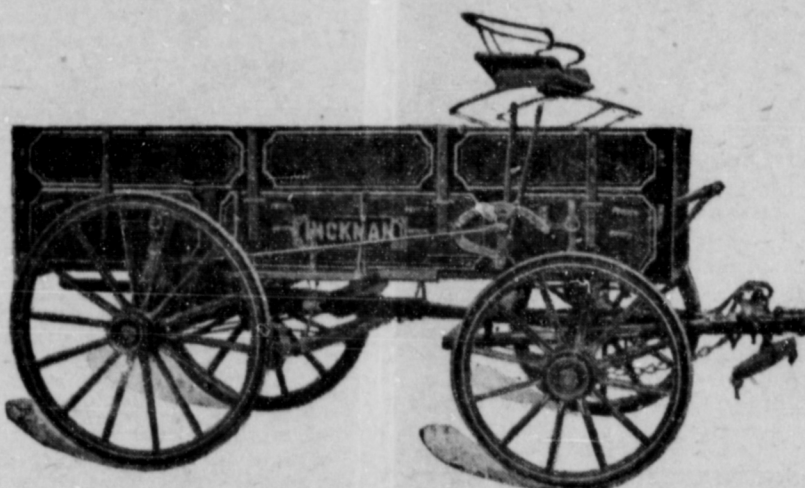

Mr. Meacham is well known to our people. He is a young man of excellent character and fine business ability and enjoys the respect and confidence of all who know him. For the past five years he has been connected with the Hickman Hardware Co. and is a valuable man in the business. He is a son of Mr. and Mrs. D. O. Meacham, of Scooba, Miss., but was reared in Hickman.

The couple will be at home in Hickman about the first of next month, and the Courier joins their many friends in wishing them a pleasant journey and safe return, and all happiness in the years to come.

### SCISSORS WITH A SAW-TOOTH

Teeth Hold Material Fast and Prevent it from Slipping Toward End of the Shears.

A very handy tool can be made from an old pair of scissors or shears, as shown in the accompanying sketch. One blade is cut with a set of saw teeth inclined toward the handle. These teeth hold the material fast and prevent it slipping toward the point of the shears. Rubber sheeting, strips, and all kinds of soft packing can be easily cut with square or inclined ends. It matters not in what position the scissors are held; they will cut without slipping. In using these scissors for rubber and other slippery goods, the saw-toothed blade should be on the bottom to obtain the best results. Heavy rubber and packing can be cut with less effort, as it is not necessary to hold the scissors against the goods to prevent slipping. The same design of lower blade can be applied to plumbers' and metal workers' shears with a change in the relative positions of the holding and cutting blades, says Scientific American. If the saw-toothed blade is kept

Scissors with Saw-Tooth Blade.

on the bottom of the goods, the edge will be left rough; but by reversing the shears, so that the saw teeth come on top, the edge is left just as clean as if no teeth were used. The piece cut off however, is rough on the edge. The scissors can be used to cut paper, cloth, or any other material, if the saw teeth are kept on top or bottom, according as it is desired to have the smooth edge on the left or the right-hand piece cut off.

### Guns with Double Tubes.

Henceforth all sea coast guns of six inch caliber or over, except mortars will be provided with double tubes, so that, should the inner tube give way the damage will not extend to the outer tube and the enveloping jacket and hoops. This will permit the restoration at small cost of guns whose tubes give way and will facilitate the rehabilitation of guns whose accuracy has been lost through erosion and wear of bore.

### AT THE BASE BALL GAME.

She—What did that man with the wire over his face say?

He—One ball.

She—I don't understand why he said it?

He—The pitcher threw a ball. That's different from a strike, you know.

She—Of course. Anybody could see he threw a ball. He had it in plain sight in his hand. What else would he be expected to throw?

He—A strike.

She—But the man with the stick does the striking, doesn't he?

He—He strikes, but it's a strike if he misses.

She—There! That man who talks said "strike" and the one with the stick hadn't stirred.

He—It was a good ball, and he ought to have struck.

She—Well, he didn't, and it isn't fair to treat him that way. Why, now he's dropped the stick and is going away.

He—Yes; he gets his base on four balls.

She—Why, you story teller, there is only one ball here. Say, Harry, do the players wear horrid spikes in their gloves?

He—No, the spikes are in their shoes.

She—Dear me, but I should think that would hurt. Why, I had a little nail in my shoe one day, and it made me just lame. What's that man 'way out there running for?

He—Trying to catch a fly.

She—Now, Harry, you're fooling me. The idea of making all that fuss over a fly! And it's too early in the season, anyhow. We haven't put up our screens yet.

He—Hello! A squeeze play! Bully!

She—What kind of a play is that?

He—My dear girl, you have caught the general plan of the game beautifully, but the squeeze play is too technical. I'll explain that the next time we come.

She—Oh, will you bring me again? When shall we come?

He—The boss says I may have another afternoon off in 1915.

## Moore's Auto Law Big Revenue Getter

Rep. F. S. Moore, of this city, may well feel proud of his automobile tax bill.

Kentucky derives more revenue from automobiles now than any other state in the Union with the possible exception of one or two, and the licenses on motor cars are an important item of expense to the owners of these vehicles.

Every automobile owner is compelled, under the law to file with the secretary of state annually each motor vehicle owned by him, a statement giving his name and address, and a detailed description of the character of such vehicle. Each automobile must have two number tags or hangers with white figures not less than four inches in height and one-half inch stroke on background letters "Ky." to follow figures. One of these tags to be attached in front and one in rear of the automobile.

The fee for registration is \$5 for each motor vehicle less than 25-horse power, \$10 for each 25-horse power and less than 50, and \$20 for each 50-horse power and greater.

Then there is a city tax, and in some counties also a county tax.

The owners of automobiles pay a much larger tax than is paid on any other kind of vehicles in the state, and yet there is a feeling on the part of a great many persons that the automobile has no right on the road. Now that automobiles are paying a state tax, in addition to a city and county tax, and all this in addition to the ad valorem tax to city, county and state, the owners of automobiles feel that the time has come when the people of the state should recognize that the motor vehicle has as much right on the road as horse driven vehicles, and really pay much more to maintain the roads over which they are driven. The automobile has come to be a fixture and an important factor in the civic condition of today and the automobile owners are asking a square deal. They say that they are forced to take the blame for every accident and are held to a much stricter accountability than anybody else.

## THIRD OPERATION PREVENTED

By Lydia E. Pinkham's Vegetable Compound

Chicago, Ill. -- "I want to tell you what Lydia E. Pinkham's Vegetable Compound did for me. I was so sick that two of the best doctors in Chicago said I would die if I did not have an operation. I had already had two operations, and they wanted me to go through a third one. I suffered day and night from inflammation and a small tumor, and never thought of seeing a well day again. A friend told me how Lydia E. Pinkham's Vegetable Compound had helped her, and I tried it, and after the third bottle was cured." -- Mrs. ALVINA SPEIGHT, 1408 Clybourne Ave., Chicago, Ill.

If you are ill do not drag along at home or in your place of employment until an operation is necessary, but build up the feminine system, and remove the cause of those distressing aches and pains by taking Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years it has been the standard remedy for female ills, and has positively restored the health of thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

## Some of Kentucky's New Laws

More than 100 new bills that were passed by the General Assembly of Kentucky went into effect last month. A good many of them are of considerable importance.

Hereafter a hung jury in a Commonwealth case will be a thing of the past. In the future the jury will merely pass upon the guilt or innocence of the accused and the Judge will fix the sentence.

Among the new acts that become laws last month are:

Permitting the Commingling of tobacco.

Empowering regular judges to be special judges.

Authorizing the indeterminate sentence.

Providing for the recording of agreements of pooling crops.

Providing for an appropriation for the Home of Incurables.

Providing for legal holidays, October, 12 (Columbus day.)

Providing for one of the State penitentiaries to be changed into a reform school.

Providing for a penalty for drinking intoxicating liquors on trains and public conveyances.

Making the trapping of rabbits unlawful and fixing a penalty therefor.

Providing for the holding of elections to determine whether or not stock shall run at large.

Fixing age for jury service.

Providing a penalty for mistreating dumb animals.

Changing libel laws, and providing for change of venue.

Permitting railroad companies to establish and operate ferries.

Providing an expense fund for the governor.

Appropriating \$50,000 for the completion of work on capitol grounds.

Making an appropriation for the Confederate home.

Making an appropriation for the Colored home society for children.

Providing for co-guardianship of children by parents.

Providing for electrocution of criminals where death sentence is imposed.

Providing for the manufacture of hog cholera serum, and establishing distributing point.

Regulating mines and mining and providing for life saving apparatus for miners.

Allowing Fiscal Court to levy tax for court house fund.

Providing penalty for failure to sound warning at railroad crossing.

Regulating the further pooling of farm products.

Making the practice of abortion a felony and fixing the penalty therefor.

Increasing fee for jailer.

Prohibiting the destruction of fish with guns loaded with steel bullets.

Legalizing slave marriages.

Appropriation for statue for Gen. John H. Morgan at Lexington.

Providing for Bee Inspector.

Providing punishment for those responsible for the condition of dependent children.

Amending law providing for compulsory attendance of children in schools.

Providing for the registration of automobiles.

Amending local option law in regard to license.

Providing for the protection of religious assemblies, such as camp meetings.

Fixing punishment for adulteration of food and drugs.

Changing exemption law providing that 10 per cent. of laborers be not exempted.

Regulating the pooling of farm products.

## Ten Cent Sale Costs Him \$26.50

H. C. Speight, who drives a produce wagon for the Davis Produce Co., of Union City, retailed a dime's worth of bananas in this city Tuesday afternoon and the transaction cost him \$26.50. H. C. Helm, city clerk, saw the deal and knowing that this concern had no license, promptly swore out a warrant for Mr. Speight's arrest. The Clerk had warned this company before regarding their selling produce without a license, but this warning had been ignored, consequently Judge Remley made their retail business come a little high. The law was made to protect our merchants and we are glad to see it enforced. If the out-sider can't pay a license, let 'em stay out.

### COOKED VS. UNCOOKED CABBAGE.

Natural and cooked cabbage differ as much in food value as do oak and shavings as building material. Boiled cabbage serves only as a relish, and that cannot justify its use when so many good foods can be relished, even by one who is not sufficiently in need of food, physiologically, to relish any good food. Aside from this, recent experiments prove that boiled cabbage favors the cultivation of injurious germs in the colon, increasing auto-intoxication. Uncooked cabbage, on the other hand, rather retards the development of injurious germs, a fact which is easily demonstrated in any laboratory with a microscope.

## Wets to Make Attack on Hickman

The Courier is informed that the liquor interests, in their desperate attempt to get saloons back in the dry towns of the state, have sent to Hickman a mulatto negro, known as "Mundy," to do "missionary" work among the negroes of this city and that he is now here on the job. He is said to have come from Fulton, where he has been talking to the negroes, trying to influence them into voting for saloons in that town when their election comes on the 21st of this month. This is a forerunner of a movement to hold an election here to vote on the saloon question, provided Fulton goes wet.

If the above report is true, Mr. Negro ought to be given a vigorous application of cow-hide, eggs, or some such treatment, and the sooner the better. The better element of Hickman should not stand for this insult, and we don't think they will.

It is possible that business is all talk--and then there are other possibilities. At any rate, should it come to a vote on the question we could easily defeat it, but we don't want to lose a year's growth, like Fulton, in a very unnecessary campaign.

### WHAT HE WANTED.

The eloquent speaker at the Polar club dinner grew enthusiastic.

"Just look what the explorers give us," he shouted, warming up to the subject. "They give us information about the aurora borealis, they give us descriptions of the caches and igloos, they give us the life of the Eskimo and--"

But just then a little man at the end of the table was rude enough to interrupt.

"Mr. Speaker," he piped in a shrill voice, "there is just one thing they could give us and we would all appreciate."

"And what is that, sir?"

"They could give us a rest."

### Slow Farming.

"It says here that the government is going to encourage small farming," remarked the oldest inhabitant as he opened his weekly paper in the country store.

"Give me the paper, Hezekiah," hastened the farmer who had just come in with a basket of eggs.

"What do you want with it, Jason?"

"By cricky, I want to show it to my hired man and let him apply for a job on one of them small farms."

"Shucks! An ordinary hired man wouldn't be any use on a small farm. The blamed critters would run over him."

### Barnyard Repartee.

The proud gander and the cackling hen were arguing.

"But remember one thing," said the proud gander, "it was a goose that laid the golden egg."

"Tut, tut!" scoffed the hen. "With eggs at their present rate we can get enough for our output without laying golden shells and losing our heads in the bargain."

For even then the farmer was announcing to his son that eggs had advanced another 6 cents on the dozen.

## CURTIS BREAKS RECORD EMBEZZLES \$500,000

FLIES 50 MILES IN 1 HOUR AND 14 MINUTES.

Sweeps His Machine Up 1,600 Feet in 6 Minutes—Will Probably Get \$5,000 Prize for His Efforts.

Atlantic City, N. J.—Glenn Curtiss set an American record for a fifty-mile flight in an aeroplane Monday afternoon by covering the distance in five-mile laps along the beach in 1 hour 14 minutes and 59 seconds. Curtiss was in the air one hour and twenty minutes, and spent one hour thirty-one minutes and five seconds on the course, six minutes and six seconds being deducted for the turn at the two ends of the two and one-half mile course.

In the early evening Curtiss set a new mark for quick climbing by sweeping his machine 1,600 feet in the air in five minutes and fifty-one seconds.

At the end of his flight Curtiss declared that his engine worked perfectly, and expressed his belief that the added weight he was forced to carry in emergency apparatus, in case of falling into the sea and the necessity of running partly into the wind to keep in the course, held him back at least fifteen miles an hour.

Curtiss' contract ended Monday night, leaving Brookins in possession of the \$5,000 altitude prize, won on Saturday evening, when he made a world's record of 6,175 feet, and which will be given to him tomorrow. The Wright aviator has not yet announced whether he will go after the fifty-mile prize of \$5,000, which will otherwise go to Curtiss.

### MOSQUITOES BY THE MILLION

Gulf Coast Swarming With Insect Pests.

New Orleans, La.—The entire Gulf coast of Louisiana and Mississippi is suffering from a plague of mosquitoes. Millions of the pests are swarming over that region, making life almost unbearable to inhabitants. Many New Orleans families who went to the coast to spend the summer have returned to this city and will spend the remainder of the season at home. Animals are being driven frantic by the mosquitoes and in some localities the horses and mules are dying.

Wild animals in the swamps of the rivers and bayous have been forced to flee many miles in an effort to outrun the mosquitoes and in some instances deer have gone into the cities and towns in their flight from the winged pests. In the southwestern part of Louisiana several large saw mills and factories have closed down because their employes have refused to stand the torture of fighting mosquitoes and trying to work at the same time.

### BLANKET OF STEAM LIFTS

Twelve Deaths and Many Prostrations in New York.

New York.—The blanket of steam in which the city has parboiled for the last week lifted for a few hours Monday afternoon, under the pressure of faint airs from the sea, but the slight drop in the thermometer was not sufficient to effect the continuing drain on the lowered vitality, and there were more deaths Monday than Sunday—twelve against ten—and a longer list of prostrations. The maximum official temperature was 89 degrees.

For the week ended Sunday the health department gave out a total of twenty-three deaths, against seven for the corresponding week last year.

When you feel lazy, out of sorts, and yawn a good deal in the daytime you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c. Sold by Hickman Drug Company.

Secretary Ropke Waives Examination—He Had a Clearing House System of Fleeing Bank.

Louisville, Ky.—Admission that the shortage of August Ropke, defaulting secretary of the Fidelity Trust Company, is very large was made at the trust company offices late Tuesday afternoon. At the same time it was announced that the directors of the company have pledged themselves to an increase of \$1,000,000 in the capital stock if such increase is necessary.

Ropke's shortage is placed by current rumor at about \$500,000. His case was set for hearing before the grand jury October 5 and the prisoner returned to jail, in default of \$25,000 bail.

Although no statement could be secured on this point, it is said the speculations began between ten and fifteen years ago.

The system employed by Ropke is also as yet unexplained, although it is generally supposed he manipulated individual accounts.

It is also said he had authority from several depositors to check on their accounts, subject to the supervision of the trust company officials. A report was current Tuesday that he checked on these accounts for large amounts and intercepted the checks upon their return from the clearing house, so that the officials of the company would not see the checks. He is said to have used the money for his own account, and to have made entries in the ledger to offset the amount taken.

The last statement of the Fidelity Trust Company showed a reserve and sinking fund, in round numbers, of \$1,300,000. The capital stock is \$1,000,000 par, and Monday sold on the local exchange at 3.80. Tuesday it was offered at 3.55.

### COTTON MILLS CURTAILED

3,622,000 Spindles at Spartanburg, S. C., to Be Stopped.

Spartanburg, S. C.—Reports showing that 3,622,000 spindles out of the 3,711,000 spindles represented in the South Carolina Cotton Manufacturers' Association will be stopped at least a portion of the time in July and August were presented at the meeting of the association held here Tuesday morning. Some of the mills represented in the association are not now, and never have been, in operation, thus making the curtailment movement practically unanimous.

It is estimated this will mean a reduction in output amounting to 2,500,000 pieces of cloth. A meeting of the executive committee has been called to consider further curtailment, to be held in the latter part of August or early in September.

### Hickman Wagon Co. Makes Improvements

Under the new management, the Hickman Wagon Company is doing things these days.

A force of men is now at work on a new frame building 82x122, west of their office building, which is to be used as a paint-shop and warehouse. The company has a building in East Hickman which has been used for this purpose for a number of years, but the factory products had to be hauled there from down town, making a big expense. Mr. Dodds, principal owner of the concern, figured it would be economy to complete the wagons right at the factory, hence the new building. In the southwest corner of the new structure they will have their office, and at the rear a switch will be built to take care of the shipping business.

Since the change in ownership was made the factory is running every day with a good force of men at work, and its dollars to doughnuts that S. L. sells wagons, too. Foreman Hertweck has orders to make up a thousand of these celebrated wagons and keep the wheels moving. If there's a man in this section of the country that knows how to put up a good vehicle, its Ben. C. F. Baltzer, former manager of the concern, is now secretary and treasurer—a first class man for the place—and this trio makes the best kind of a combination. The Hickman Wagon Co., with its capacity of 5,000 wagons a year, will take her place among the leading factories of the South, in a very short time.

We want all the local news. If you cannot see a reporter, call No. 21—Cumberland or Home phone.

## EXPORTS SHOW DECLINE

Wheat Reduction Amounted to 21,000,000 Bushels.

Washington, D. C.—Exports of wheat from the United States for the twelve months ended with June, 1910, showed a reduction of about 21,000,000 bushels in quantity from the exports of the corresponding months of the previous year.

Corn showed a reduction of about 1,000,000 bushels for the same period.

Meat and dairy products declined in value of exports from \$146,000,000 in 1909 to \$110,000 in 1910.

Cotton, while showing a fall of half a billion pounds in the quantity exported developed an increase of thirty-two and two-thirds million dollars in the value of exports.

### Germany Not Interfering.

Germany has taken no stand in opposition to the United States in the affairs of Central and South America. Germany has issued no statement that could be construed into antagonism of the American government in what that government has done, is doing, or may do in Nicaragua.

### Will Prohibit Fight Pictures.

Indianapolis, Ind.—The Jeffries-Johnson prize fight pictures will not be shown in Indianapolis. This decision was reached Tuesday after Mayor Shank held a conference with the city officials.

### Huge Deal Pending.

Lexington, Ky.—The district board of the Burley Tobacco Society, with representatives present from sixty or more counties, convened here Tuesday to consider, among other questions, the prospects for the sale of the 1909 crop.

Sentiment seems strong for another pool this year, despite the fact that not a pound of the 1909 crop has yet been sold, or even graded. Negotiations are said to be progressing for the sale of ten million pounds to independent factories.

### Our Trade With Colonies Grows.

Washington, D. C.—Trade of the United States with its non-contiguous territories for the fiscal year just ended aggregated about \$199,000,000, according to statistics of the department of commerce and labor. The department contrasts this with the record of 1907, when the trade with non-contiguous territories aggregated only \$25,000,000.

### Corporation Tax Payments.

Washington, D. C.—Reports received at the treasury department give the total payments on account of the corporation tax as \$25,793,610 out of an assessment of over \$27,000,000. These figures were for the close of business Saturday. The time allowed by law in which corporations were privileged to pay without incurring any penalty for default expired on July 10, but as Sunday was a legal holiday, the date of payment was extended to include Monday.

### Burglars and Priests Fight.

New York.—Three masked burglars, intent on getting \$500 in cash and other valuables belonging to the church, were caught at work in the rectory of St. Leonard's Roman Catholic Church in Brooklyn. Three priests attacked the trio. Thugs and churchmen battled for more than a quarter of an hour. As a result of the encounter Fathers Konig and Opeel are suffering from severe bruises on the head and arms, and Father Sanders has a long knife cut in the hand. The thieves escaped.

### WHEN I CASH IN.

When I cash in and this poor race is run, my chores performed and all my errands done, I know that folks who mock my efforts here, will, weeping, bend above my lowly bill and bring large garlands worth three bucks a throw, and sow the ground in ecstasy of woe, and friends wear crepe bow knots upon their ties, while I look down (or up) a million miles and wonder why these people never knew how smooth I was before my spirit flew. When I cash in I will not care a yen for all the praise that's heaped upon me then. Serene and silent in my handsome box I shall not hear the laudators talk, and all the pomp and all the vain display will be just fuss and feathers thrown away. So tell me now while I am yet on earth, your estimate of my surprising worth. O tell me what a looloo bird I am and fill me of taffy and of jam.—Ex.

## REVERIES

Childish laughter is the echo of heavenly music.

Stirring up bitterness in a neighbor's heart is never profitable or pleasant.

The person that has wiped wet eye moistened parched tongues, put a new star in the sky of a dark life, added beauty and bloom, the song of birds and the blossom of flowers to the lot of another is—whether he be rich or poor, known or unknown, bond or free—one of God's nobility.

It doesn't pay to gossip about one's neighbors. Let us have only kind thoughts and good words for every one, and be sure to lend a helping hand whenever occasion calls for it. In trying to lighten another's burden, we forget our own; and the kind thoughts we send out come back to us like echoes.

Young man remember this: All the friends who can gather about you can never make your life a success; neither can your enemies make it a failure. It rests with you to determine whether you shall succeed or fail. Just put this thought on your memoranda, and study it carefully.

### Thoughts on Old Age.

I am afraid that old people found life rather dull business in the time of King David and his rich old subject and friend, Barzilai, who, poor man, could not have told a teal from a canvas-back, nor enjoyed a symphony concert, if they had had those luxuries in his day. There were no pleasant firesides for there were no chimneys. They were no daily newspapers for the old man to read and he could not read if there were, with his dim eyes, nor hear them read, very probably, with his dulled ears. There was no tobacco a soothing drug, which in its various forms is a great solace to many old men and to some old women—Carlyle and his mother used to smoke their pipes together, you remember.

Old age is infinitely more cheerful, for intelligent people at least, than it was two or three thousand years ago. It is our duty, so far as we can, to keep it so. There will always be enough about it that is solemn, and more than enough, alas! that is saddening. But how much there is in our times to lighten its burdens! If they that look out at the windows be darkened the optician is happy to supply them with eye-glasses for use before the public and spectacles for their hours of privacy. If the grinders cease because they are few they can be made many again by a third dentition, which brings no toothache in its train. By temperance and good habits of life, proper clothing, well-ventilated and well-ventilated dwellings and sufficient, not too much, exercise, the old man of our time may keep his muscular strength in very good condition.

### A Thousand a Year.

How many shiftless idlers there are

sighing "If I had but a thousand a year what wonders would I do." There are other things which they need far worse than a "thousand a year;" it is ambition, stir around, application, push and wise economy. without these capital would only make them spendthrifts. With or without capital, all who deserves it can and do win wealth and character. They are within the reach of all. A great majority of our most successful men started in life and business with only the prospect of a "thousand a year." A young man who cannot by his own indomitable will mould and direct the elements about him so as to win success is underserving of wealth or position. There is no use standing idly, crying about what you would do if you had capital. Providence endowed you with capital if you will only use it. Brains and muscle working together in harmony always win. It is what a man was endowed with them for. If such valuable capital is left to rest and rot the possessor will live in poverty and obscurity as he ought to. Cease whining and go to work. Keep away from saloons and gambling houses. Throw aside that cigar and remove that horrible quid from your mouth. Abandon all useless expenses and no matter how small your income, save a certain per cent of it each year, and soon you will have creed, capital and wealth. The road is plain, easy and certain. Providence has given you capital—don't bury it—go forth and "a thousand a year" shall be thine.

### Ill Temper.

This is the best land in the world and a man is utterly inexcusable for being ill tempered here. Look at Grown, Spitfire and Brothers—wasplish, cross-grained, naggy fellows whom children avoid, customers flee from and everybody dislikes. They frown and snap and snarl through the world until the last drop of milk of human kindness is frozen at the bottom of their hard hearts and the last spark of human interest is quenched in the ashes of selfishness. But here are Merryman and Warmgrasp, poor boys when they came from the country, carrying all they had in one small roll, with mother's gingerbread in their luncheon and mother's blessing in their ears "Be good boys and mind the boss." They were soon favorites of the store, accomodating and cheerful everywhere, and when they set up for themselves, everybody flocked to the place where even the shelves and counters seemed running over with good cheer. A melancholy musician may compose a dead march that shall make the organ weep and wail, but he can never touch the chords that set the bells of joy ringing. A melancholy poet may write of wan spirits and gloomy demons, but he can never picture the beauties of heaven. A melancholy artist may sketch death and deep horrors, but he can never paint the rising sun leaping on its sapphire bat.

## NEGROES HELD IN HAVANA

Were Accused of Attempting to Start an Uprising.

Havana.—Col. Jorge Valera, a mulatto, and six other persons, most of them colored men, were arrested by the secret police today, charged with conspiring to start an uprising against the government.

The seven men were on their way to Vieja Bermeja, in the province of Matanzas, to which a trunk containing arms and ammunition and dynamite had been shipped from Havana.

Letters and documents found on the prisoners, who have been brought to Havana, are believed to implicate many other persons in the conspiracy.

### To Oust Mayor and Sheriff.

Columbus, Ohio.—Governor Harmon has taken steps looking to the retirement from office of Mayor Atherton of Newark and Sheriff Linke of Licking county as a result of the recent lynching of a "fry" detective. Simultaneously arrangements were made at Newark for the empanelling of a special grand jury to begin a probe into the lynching, and the Newark police arrested a negro suspected of assisting in battering down the doors of the jail from which Eberhart was forcibly taken.

### Mrs. Cleveland Has a Frank

Washington, D. C.—Owing to the fact that some letters mailed by Mrs. Frances F. Cleveland, widow of the late President Grover Cleveland, have been charged with postage due at the postoffice to which they were addressed, the postmaster-general has issued an order calling attention of postmasters to the bills passed at the last session of congress whereby Mrs. Cleveland's letters, as well as those of Mrs. Mary Lord Harrison, widow of the late President Harrison, are entitled to transmission free of charge.

## WHAT HIS MAKEUP LACKED

Really Physician Could Do Little to Aid Unfortunate and Hungry Reporter.

"Billy" Ingils, who used to be on the ship news assignment for one of the Cincinnati papers, revisited the scenes of the former labors the other day. On ship news they still remember Mr. Ingils as the biggest eater that ever took lunch with the steward of a ship. The ship news men have to be on the job about five o'clock in the morning, and the first chance they have to get a square meal is when the first ocean liner appears in the harbor. Then they make up for arrears. Ingils hailed the physician of the liners on the occasion of his visit. He knew the doctor pretty well. "Doc," said he, "there's something the matter with me." He gave his symptoms. "Bad, bad," said the doctor, shaking his head. "Go right down in the boiler room, Bill, and shuck your duds. I've got to look you over thoroughly. I'm worried."

"Ingils turned pale. 'Is—is—is it anything serious, Doc?'"  
The doctor wagged his head speechlessly. "How is your appetite, Bill?" he asked, solicitously. "Are you able to eat. What did you take yesterday?"  
Mr. Ingils recounted the details of his gastronomic orgy of the day before. "For breakfast I had cakes, coffee, a cereal, some eggs, a steak, and a couple of sausages. Then I took lunch on the Philadelphia—bully lunch, too—lots of it. I was a bit hungry at dinner time and went to a restaurant for the table d'ote. I was still empty when I got through so I ordered another one. Then I went to the theater."

"Didn't you eat anything after the theater, Bill?" asked the doctor, anxiously.

"Not much," said Mr. Ingils. "I had—lemme see—I had a few oysters, and a chicken, lobster, and a rarebit—and some sort of dessert, I forget what."

"Hurry right down in the furnace room, Bill," said the doctor, "and strip. I'll go down to see you presently."

Mr. Ingils was shivering about the furnace in the chaste glory of his disarray when the doctor came down. The stokers were feebly weeping in a corner. When they looked at the white figure in the firelight they groaned piteously. The moment the doctor saw Ingils he threw up his hands. "I see now, Bill," he said. "It is even worse than I feared. Your condition is very serious."

"What—what's the matter, Doc?" asked Ingils, fearfully.

"I don't think there's a chance for you, Bill," said the doctor. "I've listened to your account of your diet. You only have one stomach, Bill—and you ought to have four."—Cincinnati Times-Star.
